Eldot's coming of age novel roars into the second week at Camp Walker. Another three days of camp are packed with comedy, adventure and surprise developments. *The Shooting Gallery* is longer and more complex; it is the “turning point” of the series of five novels. Like the first two books, it follows the two major romantic stories of Julian and Mark, Nick and Tom. Threats to their security arise from unexpected quarters. We see conflict germinate and gestate undetected—it gains a formidable position by the end of this segment in the series.

Simultaneously, the narrative is spiced with a mix of contrasting relationships, adventures, and comic relief. The exotic Geoff branches out in his personal quest for personal satisfaction; no one is safe.

A new enterprise called the Shooting Gallery gets underway as the second week begins. Danny's surprise promotion and Geoff's daring new quest signal that major events are developing. Robin and Jack's intense romance leads them to risk everything. Other conflicting interests develop—will they threaten anyone's security? *Little J and Roger Part 3* is filled with action, fun, and suspense.
